THE PUREST INTENT

Respect is not something that is handed out freely. It is extremely selective in its offerings and only given to those who have faced the mightiest challenges. In 2017, KTM took to the race track in pursuit of the ultimate respect, one reserved for the brave few who dare to face the toughest competition in the highest echelon of two-wheeled motorsport. With a pure READY TO RACE spirit, KTM entered MotoGP. Always thrilling, packed with drama and full of intense high-speed action. This is where performance demands supreme levels of innovation and riders are tested to the maximum, using elbow sliders to counter the gravity defying 64° lean angles.

KTM MotoGP riders have fully embraced the READY TO RACE mindset and compete shoulder to shoulder with the best racers in the world, consistently achieving milestones on a journey that only has one goal in mind – to be the best. While the road ahead presents the greatest challenge, the strength of the KTM spirit continues to drive our teams forward. This defining mindset is the underlying force that ensures KTM will never rest in the pursuit of its goals, and as the lap times begin to drop and more experience is earned, we back ourselves to rise to the top, as winning is our ultimate intention.

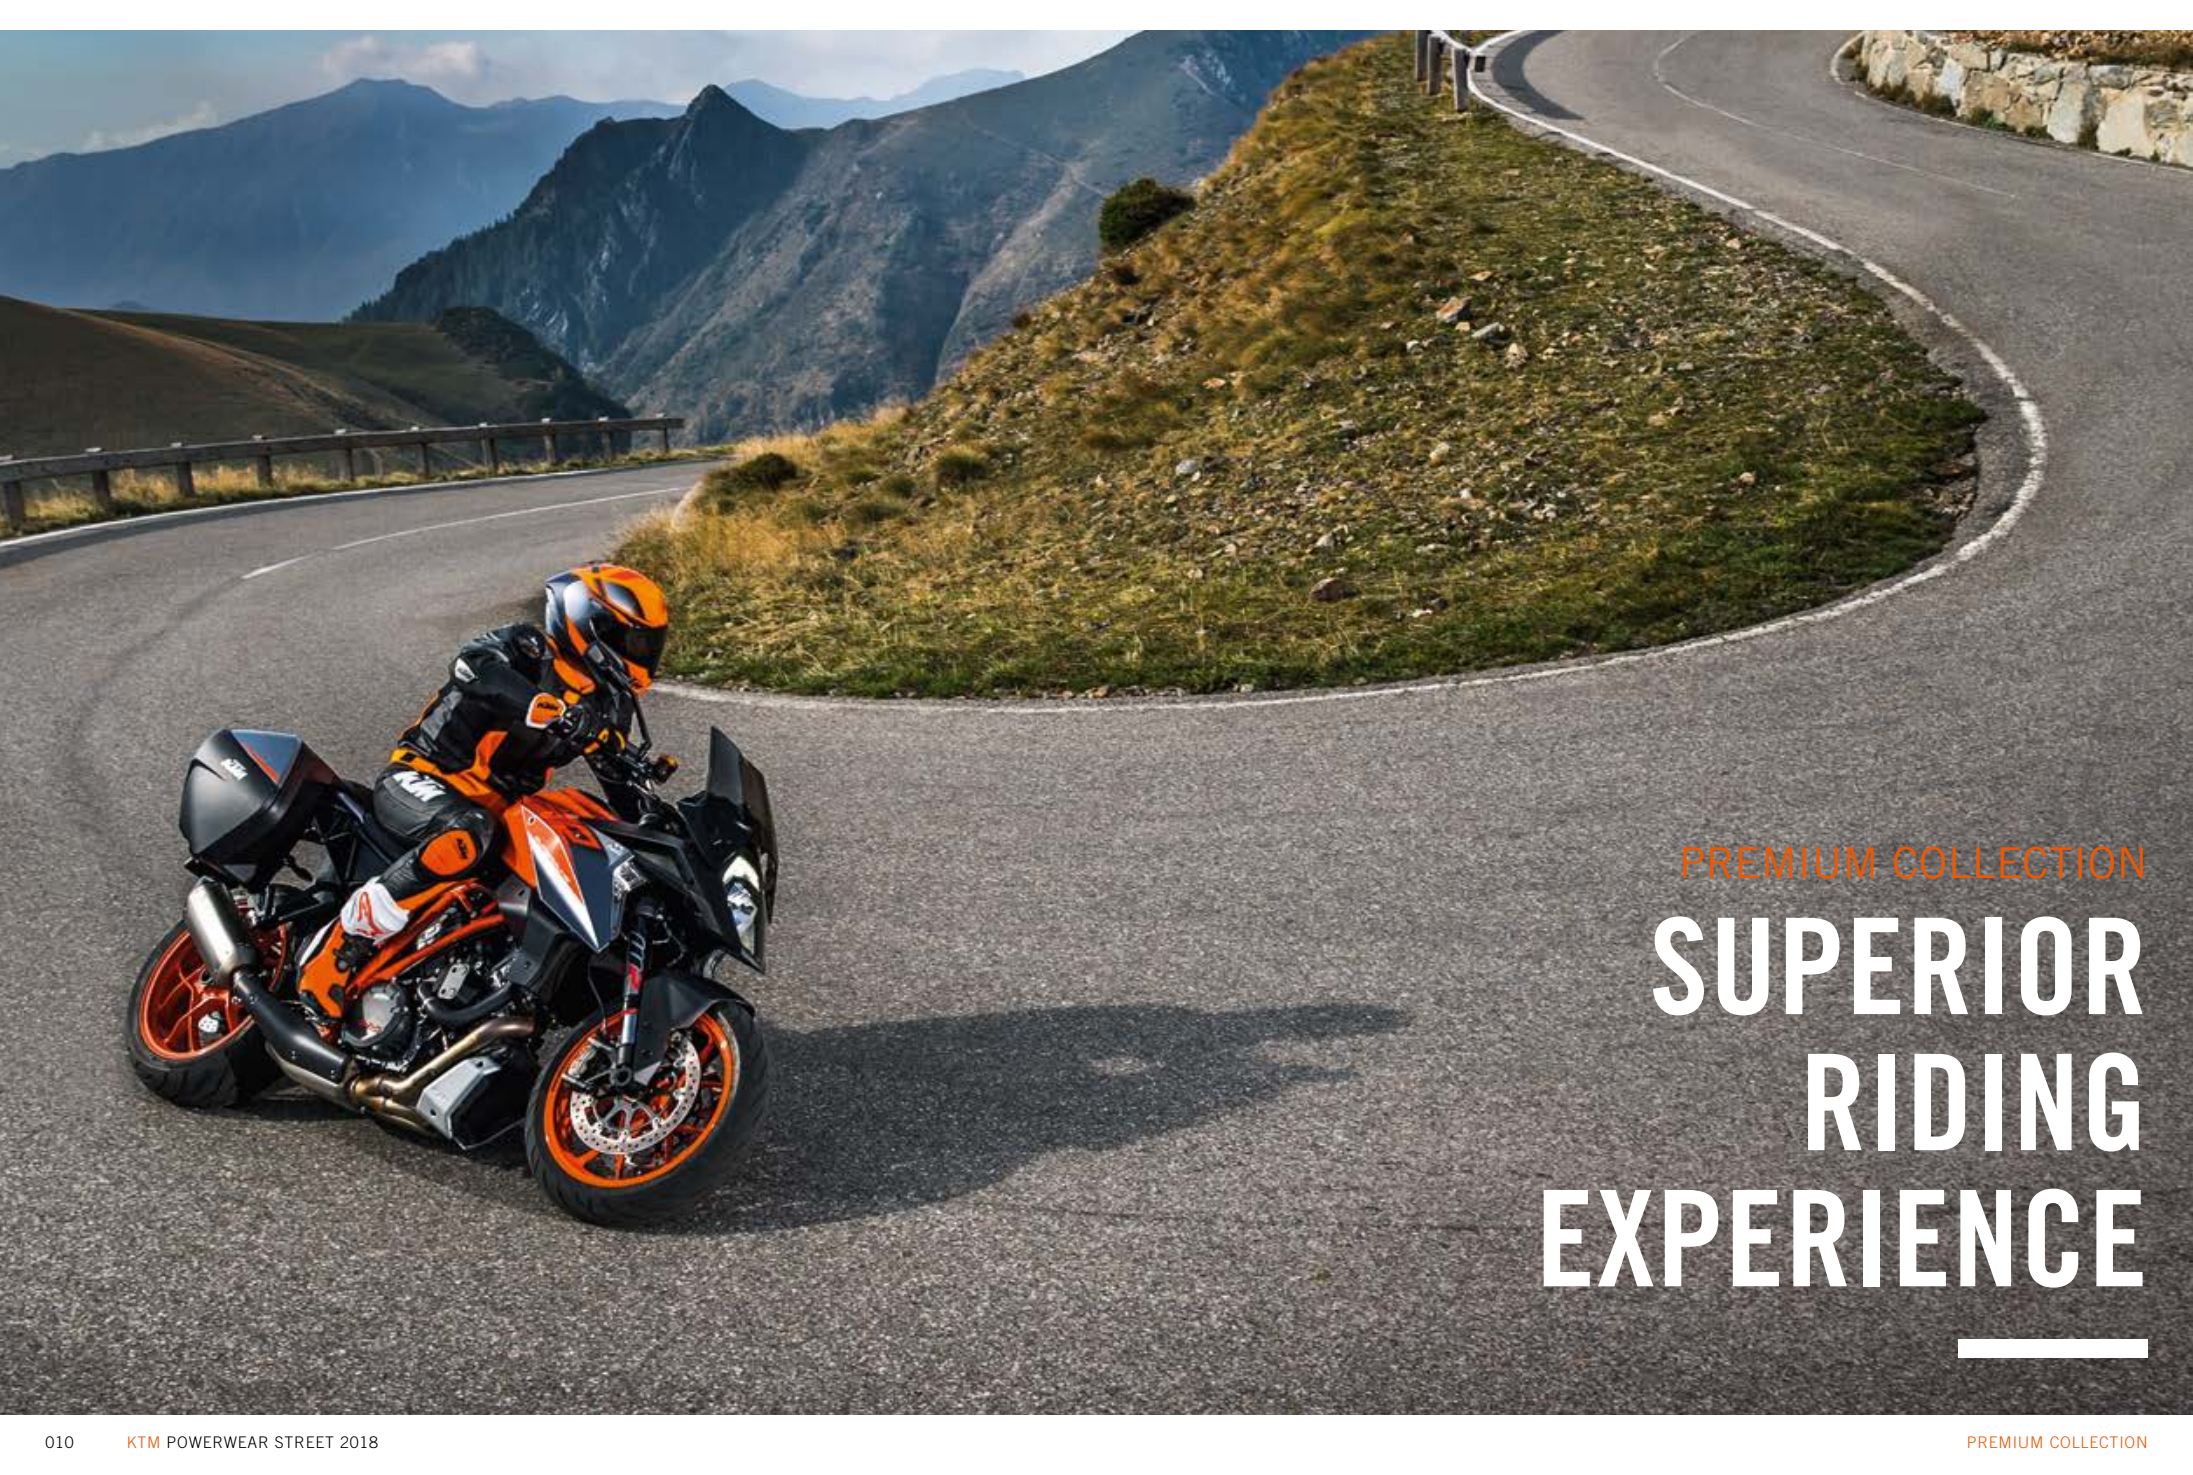

WORN WITH INTENT

KTM PowerWear is created using the same compelling motivation that drives our race teams to aim for the top and never settle for second best. This defining ethos also lives in KTM riders across the globe and inspires them to not only ride hard, but gear up with apparel that reflects their high-performance intentions. Truly dynamic in color, form and function, every aspect of this clothing embodies the READY TO RACE spirit and boldly expresses the wearer's passion for extreme and the KTM brand.

It is designed with a complete understanding of the powerful force that defines these riders, and made uncompromisingly to be WORN WITH INTENT – fitting their unique character perfectly. KTM PowerWear delivers the quality you expect when performing at your peak. It is manufactured with unrivalled ride dynamics, outstanding workmanship and tried-and-tested design solutions, making it the ideal choice for those who ride with the true KTM spirit.
